

Serial No: 08/894,246
 Perricaudet et al.
 PPR File No: EX95001-US
 EXHIBIT "A"

INTERNATIONAL SEARCH REPORT

Application No
 PCT/FR 96/00218

A. CLASSIFICATION OF SUBJECT MATTER
 IPC 6 A61K48/00 //C12N15/86

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification systems followed by classification symbols)
 IPC 6 A61K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category	Character of document, with indication, where appropriate, of the relevant passages	Relevant to class No.
Y	WO,A,94 16880 (EXEMPLAR CORPORATION) 21 July 1994 see examples see claims ---	1-25
Y	BRITISH MEDICAL BULLETIN, vol. 51, no. 1, EDINBURGH, GB, pages 31-44, XP002003907 E. KREMER ET AL.: "Adenovirus and adeno-associated virus mediated gene transfer." see abstract see page 41, line 24 - line 36 ---	1-25
Y	WO,A,94 28152 (TRANSGENE S.A.) 8 December 1994 see examples see claims ---	1-25
	-/-	

Further documents are listed in the continuation of box C.

Patent family members are listed in annex.

* Special categories of cited documents :

- 'A' document defining the general state of the art which is not considered to be of particular relevance
- 'B' earlier document but published on or after the international filing date
- 'L' document which may throw doubt on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- 'O' document referring to an oral disclosure, use, exhibition or other means
- 'P' document published prior to the international filing date but later than the priority date claimed

- 'T' later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- 'X' document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- 'Y' document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- 'Z' document member of the same patent family

Date of the actual completion of the international search

24 May 1996

Date of mailing of the international search report

07. 06.96

Name and mailing address of the ISA
 European Patent Office, P.O. Box 5018 Paleiskade 2
